

# Tru-Traffic ITE Training Course

This two-day course covers the Tru-Traffic software for creating interactive time-space, platoon dispersion or time location diagrams and for gathering real-time travel time/delay studies with a GPS receiver. It is intended for traffic professionals (agency and consultant) involved in traffic signal timing and/or travel time studies.

## Why you should attend

Tru-Traffic (formerly TS/PP Draft) is the DRCOG standard for creating time-space diagrams to fine-tune traffic signal progression. DRCOG uses it, requires it of its consultants, and many local agencies use it too. This training has not been offered in a long time in Colorado, and ITE is offering the training at a bargain price.

## Course Objectives

At the end of each section, you will be able to:

### Basic Topics

- Create a time-space/platoon-progression diagram of a signalized arterial.
- Perform a travel-time and delay study
- Optimize and fine-tune a signalized network
- Perform a variety of miscellaneous items within Tru-Traffic

### Advanced Topics

- Understand the platoon-progression diagram
- Learn tips and tricks for arterial timings diagrams
- Use a cheat sheet for creating a new progression diagram
- Enter geographic coordinates of intersections
- Learn to manipulate and interpret trip logs
- Use tips and tricks for the travel time and delay reports along with plots from trip logs
- Have the confidence in the accuracy of reports

## Location and Date

### City and County of Denver Training Facility

March 8-9, 2012  
1271 W. Bayaud  
Denver, CO 80223

## Schedule

This course is two days in length and begins at 8:00 a.m. and adjourns around 4:00 pm each day. Morning and afternoon breaks will be built into the schedule. Snacks and lunch will be provided.

## Instructor

**Greg Bullock**, Ph.D. is the creator of Tru-Traffic (formerly TS/PP-Draft). Greg first released TS/PP-Draft over 27 years ago and continues to be the primary developer and contact for the software.

## Registration Fee

The registration fee includes a course workbook, handouts, snacks, and lunch. Registration fees are as follows:

Tru-Traffic Two-Day Course ..... \$220

Registration will be on a first serve basis, and seats are limited. Confirmations of registration will be promptly acknowledged via email. Registration ends on February 27, 2012.

## How to sign up

Visit the Colorado/Wyoming ITE website to register:
